TUESDAY, APRIL 18
HOLISTIC ENERGY DAY

GreenDC  **Week**
Think Green DC! **April 17-23, 2006**

Holistic Energy Day will highlight all facets of energy efficiency and a healthy, green environment. Exhibits on green transportation, green living and design, renewable energy, and eco-fashion will be featured. Energy fun and entertainment will be available for all ages. Special guest speakers will present throughout the day. Live energy workshops will be offered, with a special emphasis on tips for "Do-It-Yourselfers."

Evening Lecture:

Professor Paul Wapner & World Watch Institute
Global Energy Issues
American University
School of International Services
1st floor, 7:00 pm

Partners: DC Energy Office, PEPCO, University of the District of Columbia, American University, US Department of Energy, District Department of the Environment
